Dear Ms. Otterby and EPAK Foundation members:

Thank you very much for this grant.

This program is a wonderful opportunity to enrich the lives of many students.

This is my first time receiving any educational grant. Although all of my speech and language students will benefit, one student in particular is already improving his language and reading skills.

This child has Autism and is now independently using one word utterances. He is also learning to read two-three word sentences from the books purchased.

Again, thank you ~~again~~ for this wonderful program.
