

Dear East Palo Alto Kids Foundation,

Thank you for the games! They are awesome! The one that I think is the yacker tracker because it is the one that helps the class from talking. But the game that I like to use is making words because I like to make new words. I also like the marker boards and pen. I like it because we get to use them in math. The game I would like to play is the math games because I like math alot. The game that I would like to use is reading games and spelling games.

Next time if you give Ms. Rush more money. This is what I want, I would like to go on a field trip to human body museum.

Sincerely,

Andrea Isabel Valencia
